# What is the AdventHealth Advantage Plans Formulary?

---

A formulary is a list of covered drugs selected by AdventHealth Advantage Plans in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. AdventHealth Advantage Plans will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at an AdventHealth Advantage Plans network pharmacy, and other plan rules are followed. This Formulary was updated as of 11/01/2022..

---

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., BYSTOLIC) and generic drugs are listed in lower-case italics (e.g., *carvedilol*). There are two ways to find your drug within the formulary:

## 1 Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Antiarrhythmics. If you know what your drug is used for, look for the category name in the list that begins page 1. Then look under the category name for your drug.

## 2 Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 95. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## What are generic drugs?

AdventHealth Advantage Plans covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

---

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

**Prior Authorization:** AdventHealth Advantage Plans requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from AdventHealth Advantage Plans before you fill your prescriptions. If you don't get approval, AdventHealth Advantage Plans may not cover the drug.

**Quantity Limits:** For certain drugs, AdventHealth Advantage Plans limits the amount of the drug being filled. For example, AdventHealth Advantage Plans may limit a drug to only 48 pills in a one-month timeframe. These amounts will be listed in the formulary below if they are applicable to your medication.

**Step Therapy:** In some cases, AdventHealth Advantage Plans requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, AdventHealth Advantage Plans may not cover Drug B unless you try Drug A first. If Drug A does not work for you, AdventHealth Advantage Plans will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1.

---

## What if my drug is not on the Formulary?

If your drug is not included in this formulary, you should first contact your Care Team and ask if your drug is covered.

If you learn that AdventHealth Advantage Plans does not cover your drug, you can ask your Care Team for similar drugs that are covered by AdventHealth Advantage Plans. Discuss these alternatives with your doctor and ask him or her to prescribe one of the alternatives that are covered by AdventHealth Advantage Plans.

---

## How do I request an exception to the AdventHealth Advantage Plans Formulary?

Your doctor can ask AdventHealth Advantage Plans to make an exception to our coverage rules. Generally, AdventHealth Advantage Plans will only approve your request for an exception if the alternative drugs included on the plan's formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

---

## Can the Formulary change?

Please note, the formulary is reviewed and updated on a monthly basis and may be subject to change. Most changes in drug coverage occur on January 1, but AdventHealth Advantage Plans may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new utilization management restrictions.

If you are impacted by a change to the formulary, AdventHealth Advantage Plans will aim to notify you at least 60 days prior to the change becoming effective.

If we make such a change, you or your prescriber may request an exception for continued coverage.

You can find information in the section above entitled "How do I request an exception to the AdventHealth Advantage Plans Formulary?" You can contact your Care Team to find out if your drug is still covered or visit [myAHplan.com](http://myAHplan.com)
